

# Practice Questions

Grade 4  
Grade 4

*you must do this question in one of two ways:*

- 1) if you do not know what to do, discuss it with me on the group*
- 2) if you have indeed completed it, or tried to do it, post a photo on the group.*

Write in expanded notation:

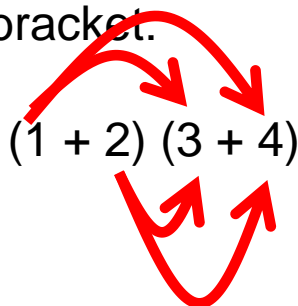

35        30 + 5  

87        80 + 7  

99        90 + 9  

26        20 + 6  

Draw an arrow from each number in the first bracket to each number in the second bracket.

# Practice Questions

Grade 4

*you must do this question in one of two ways:*

- 1) if you do not know what to do, discuss it with me on the group*
- 2) if you have indeed completed it, or tried to do it, post a photo on the group.*

The following two numbers are multiplied:

$$45 \times 52$$

Write each in expanded notation in the brackets, and then draw an arrow from **each number in the first brackets to each number in the second brackets**:

$$(\underline{40} + \underline{5}) \times (\underline{50} + \underline{2})$$
